

# Home Improvement For Value

**How to choose what projects will increase your home's value the most**

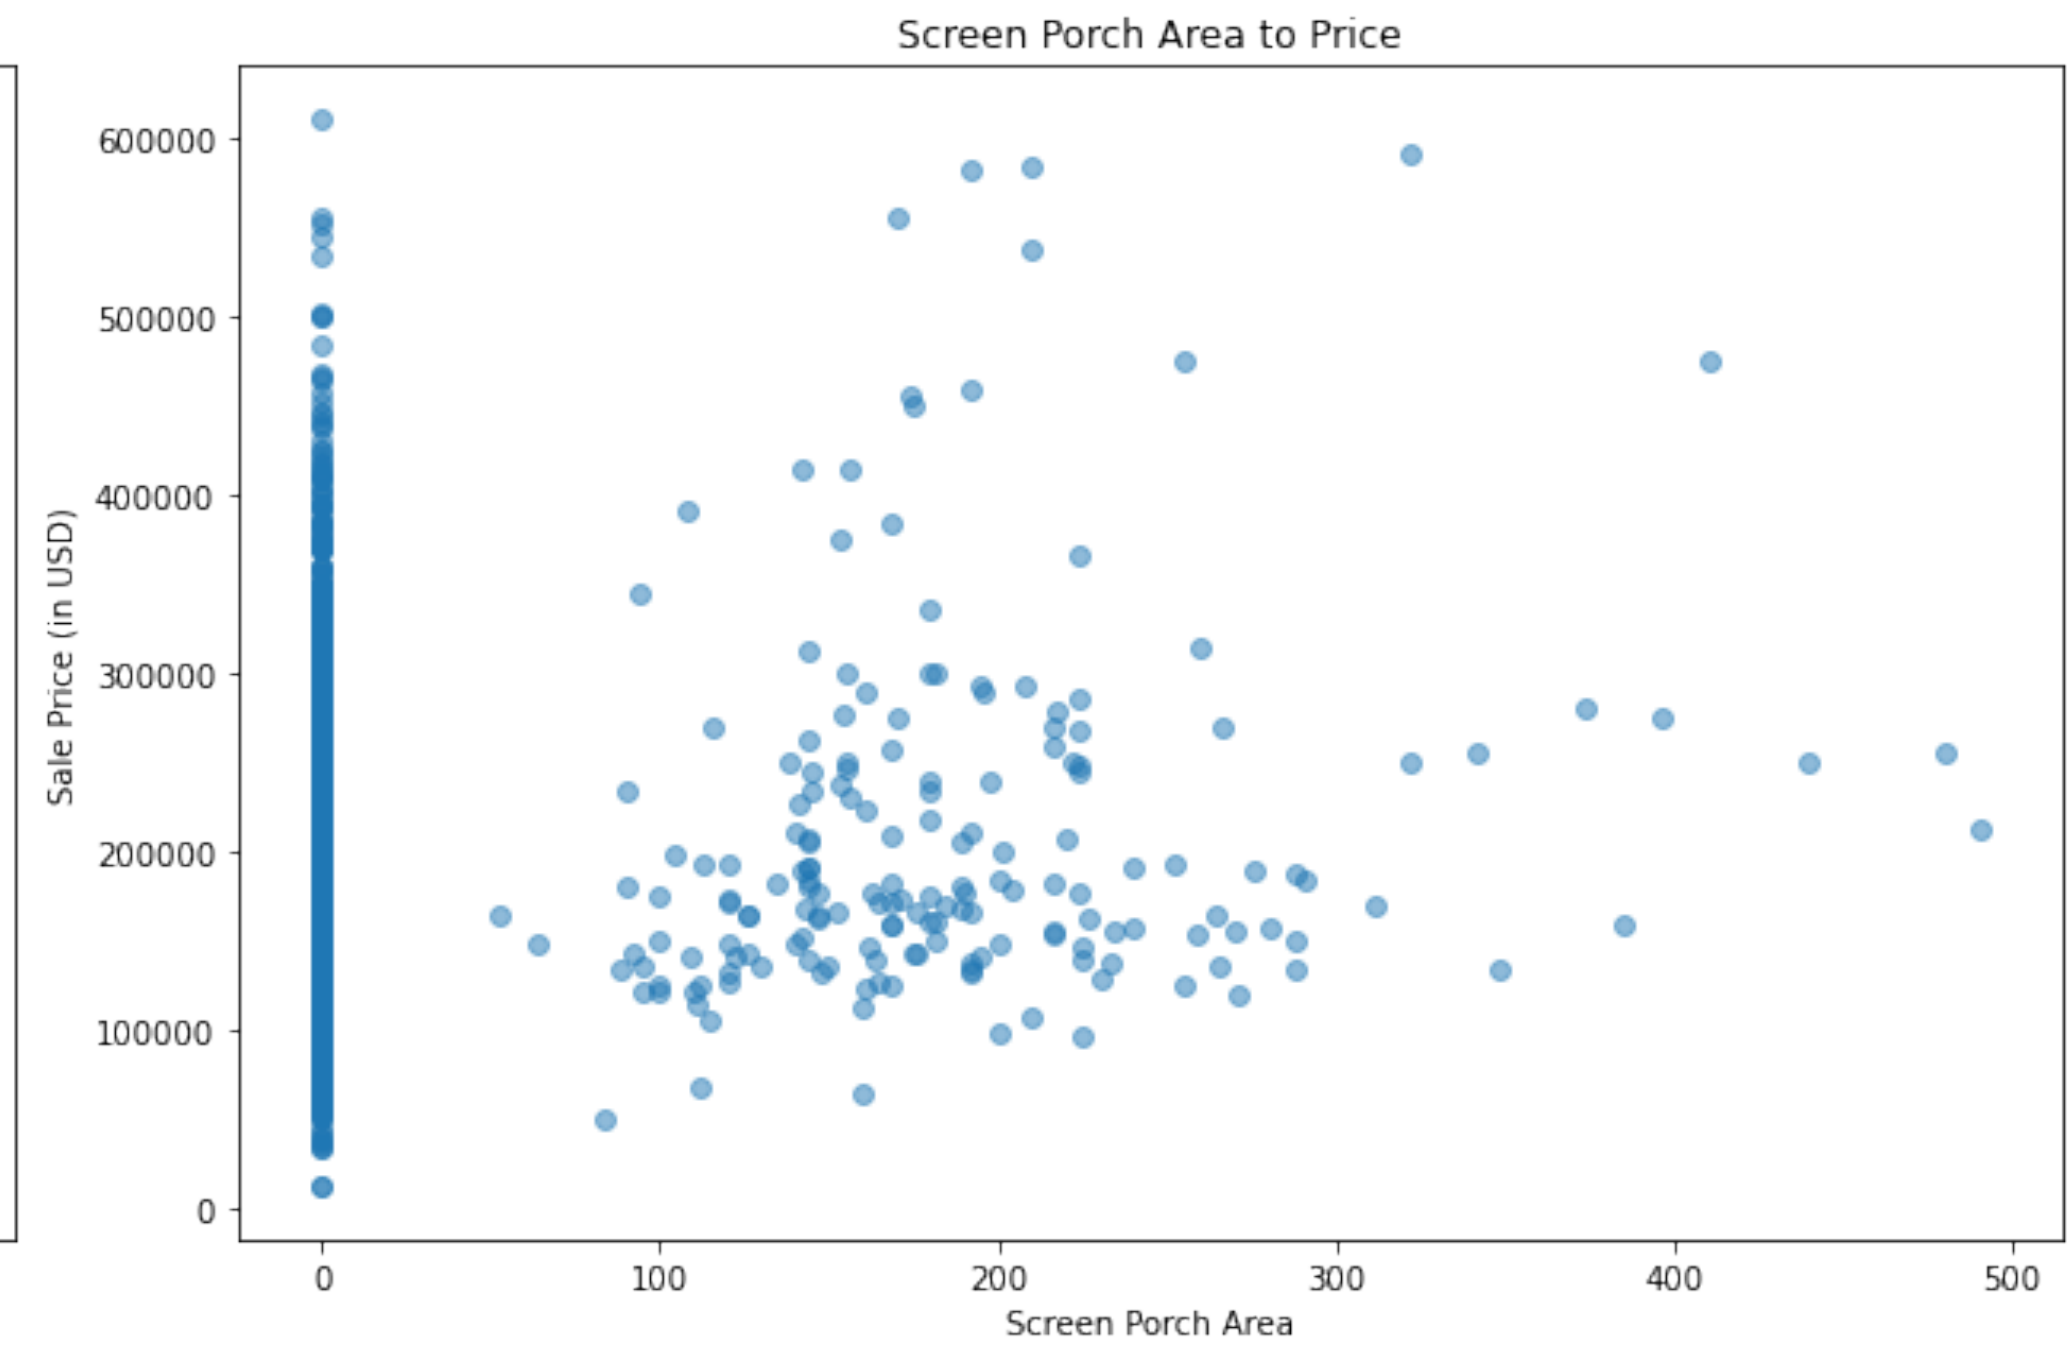

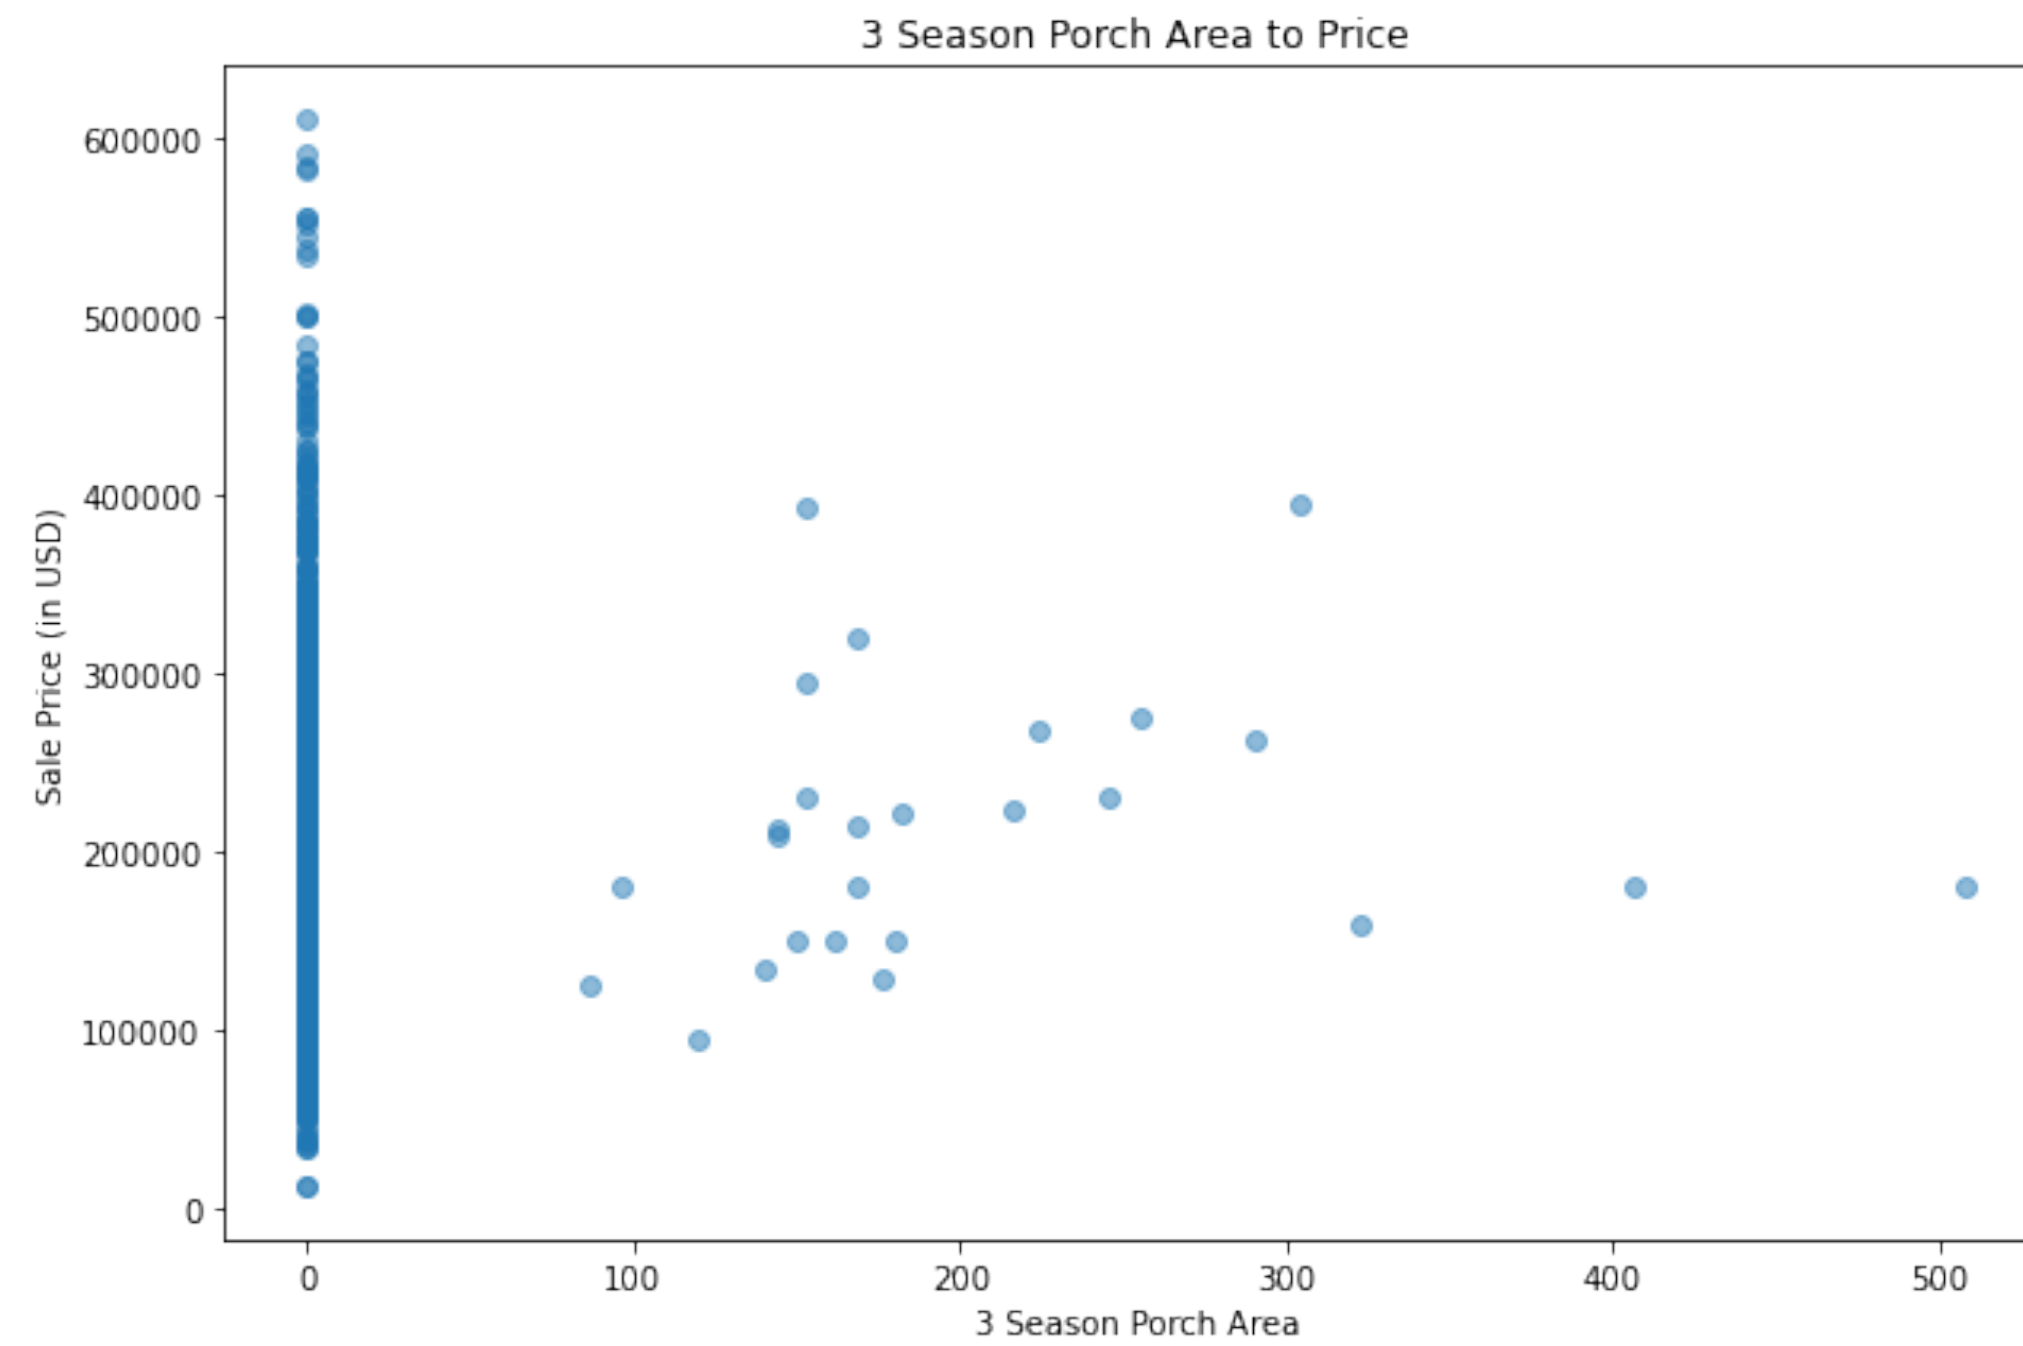

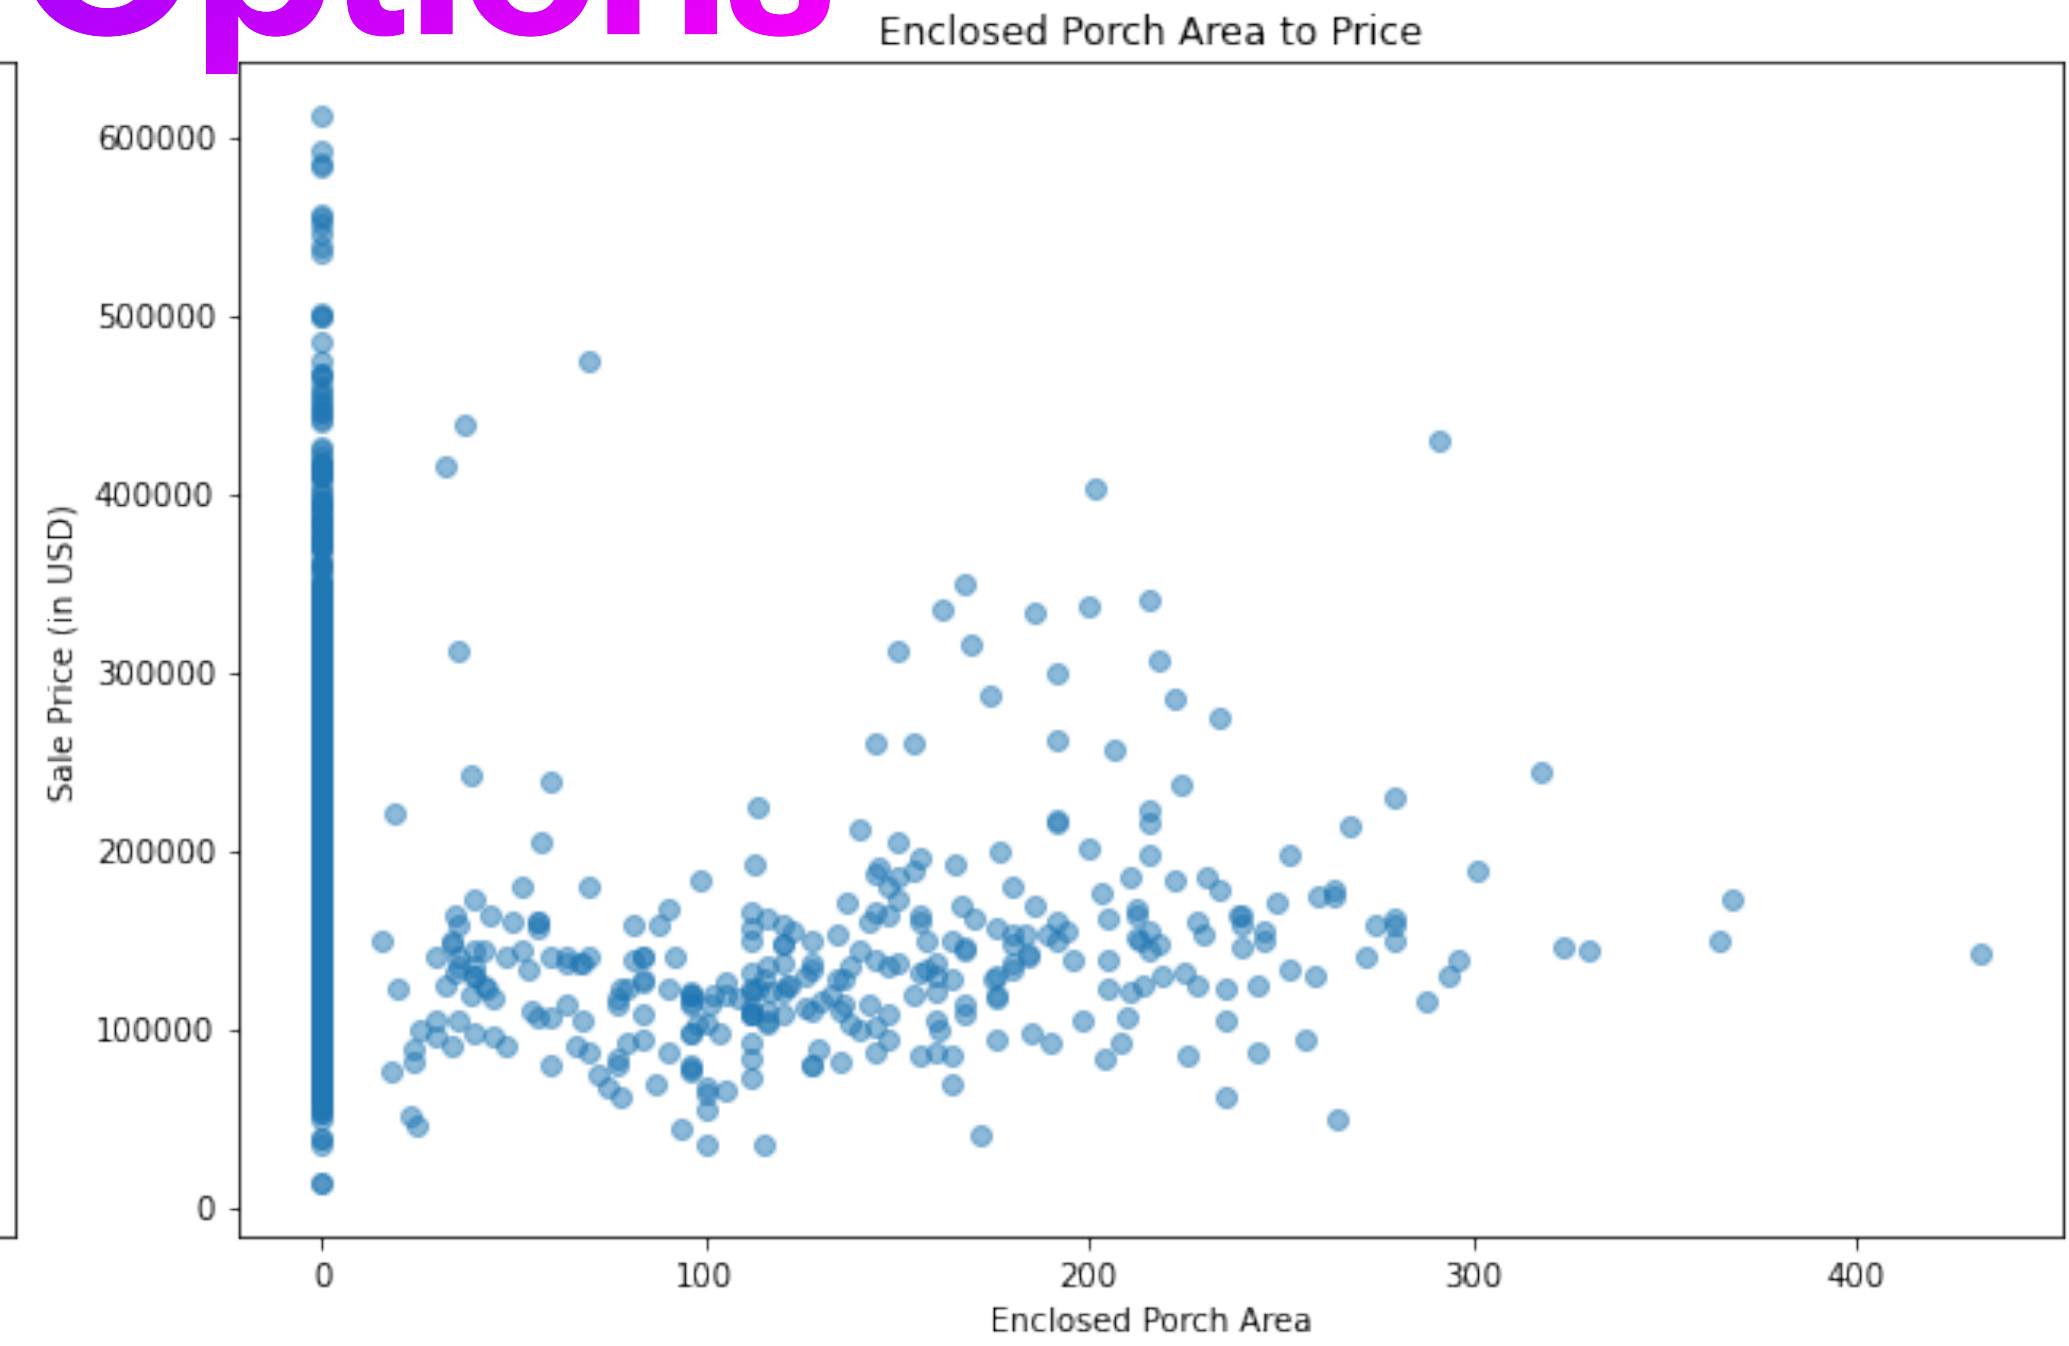

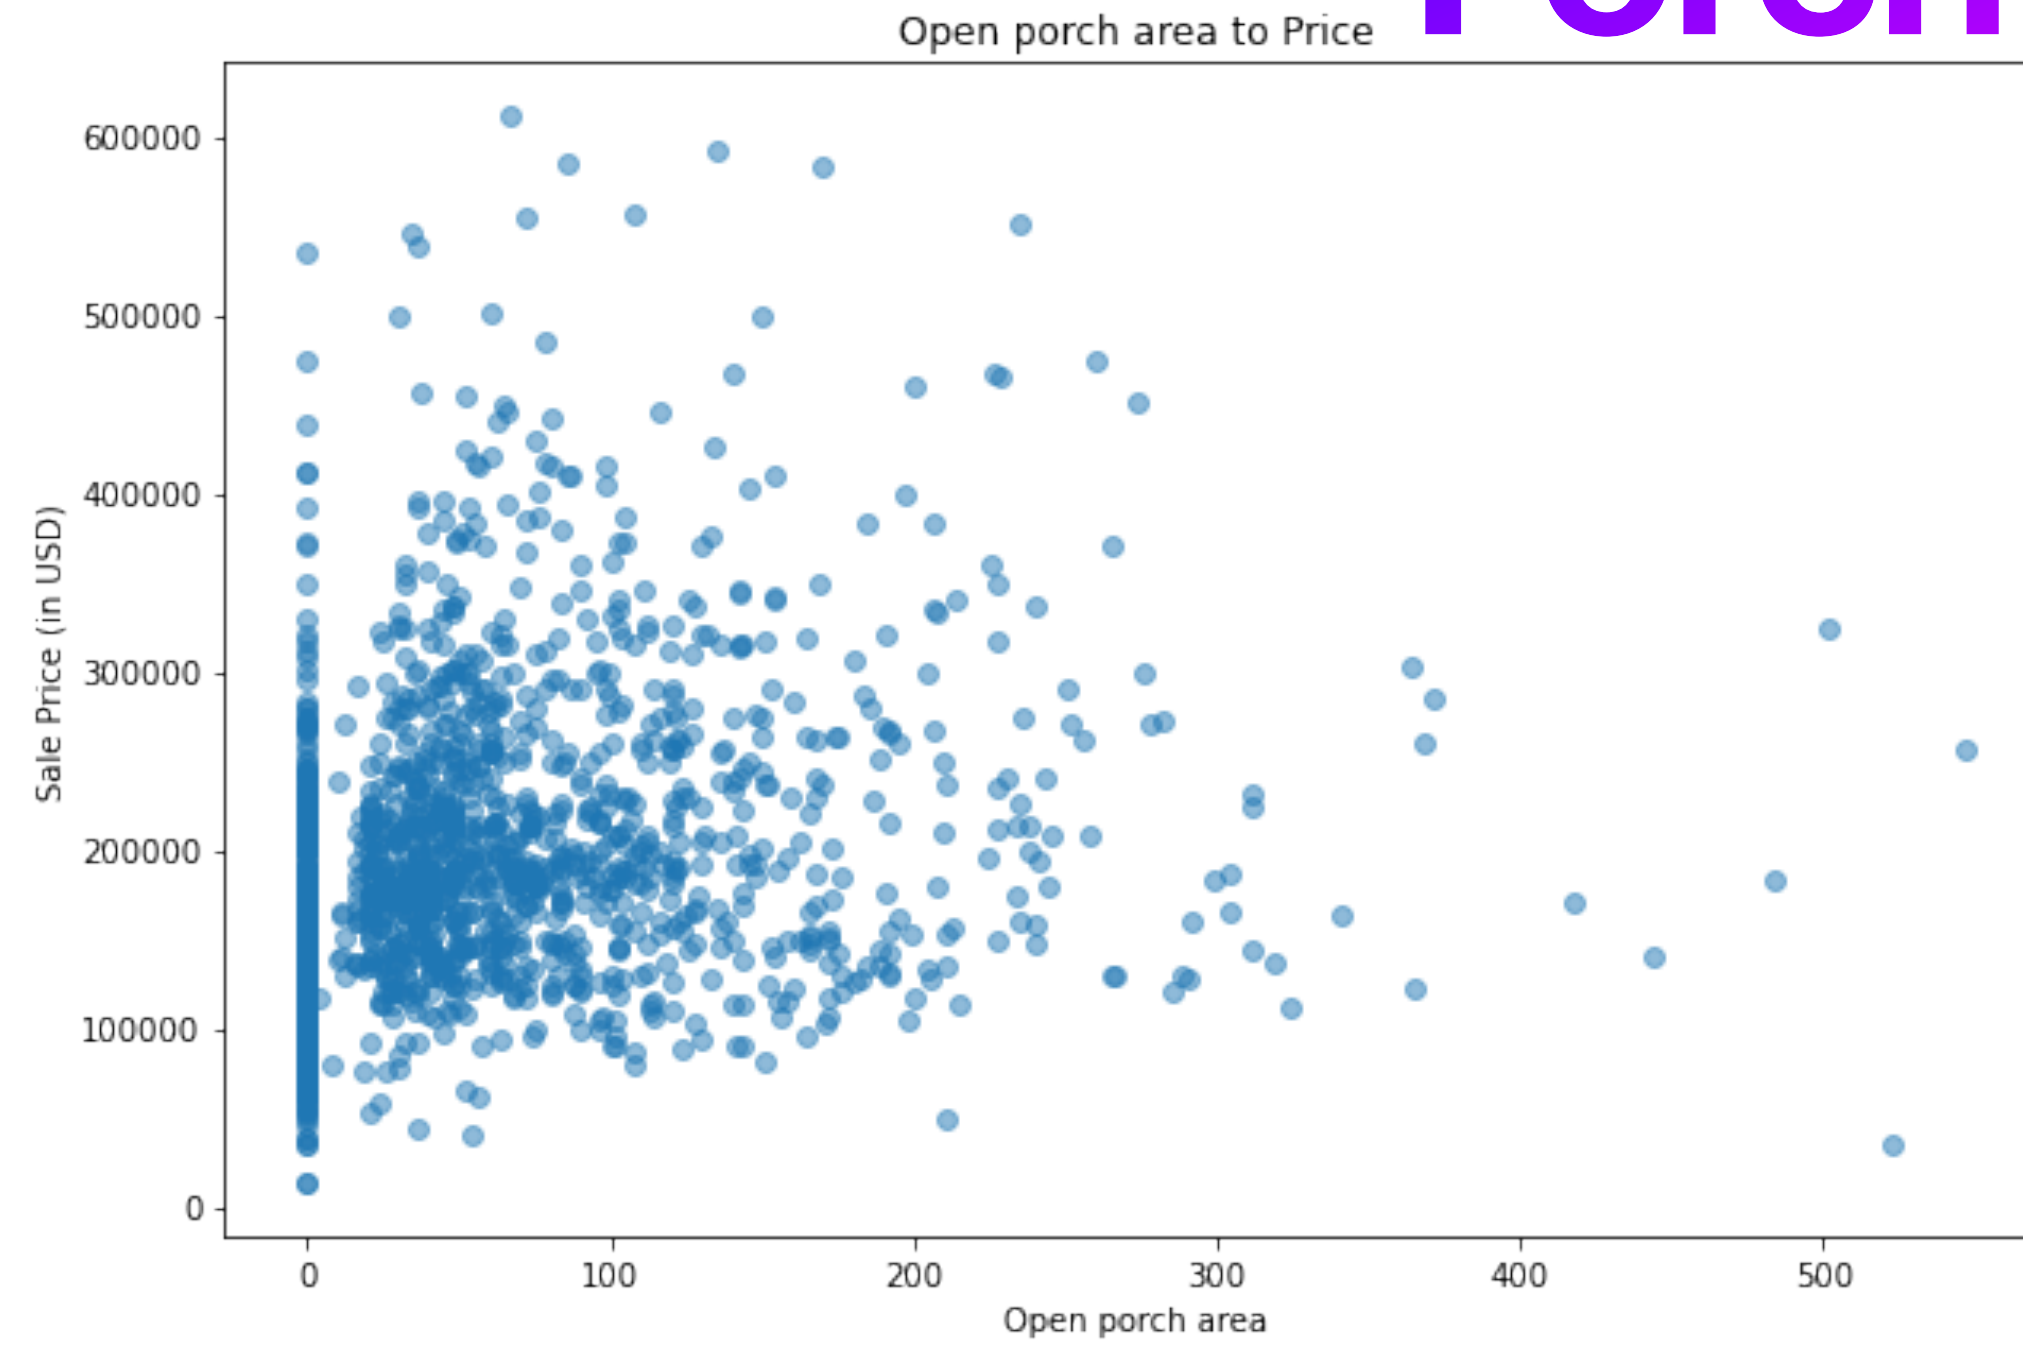

Samuel Yeager, 1/19/21

# Overall Condition

Increasing your home's condition helps, to a point.

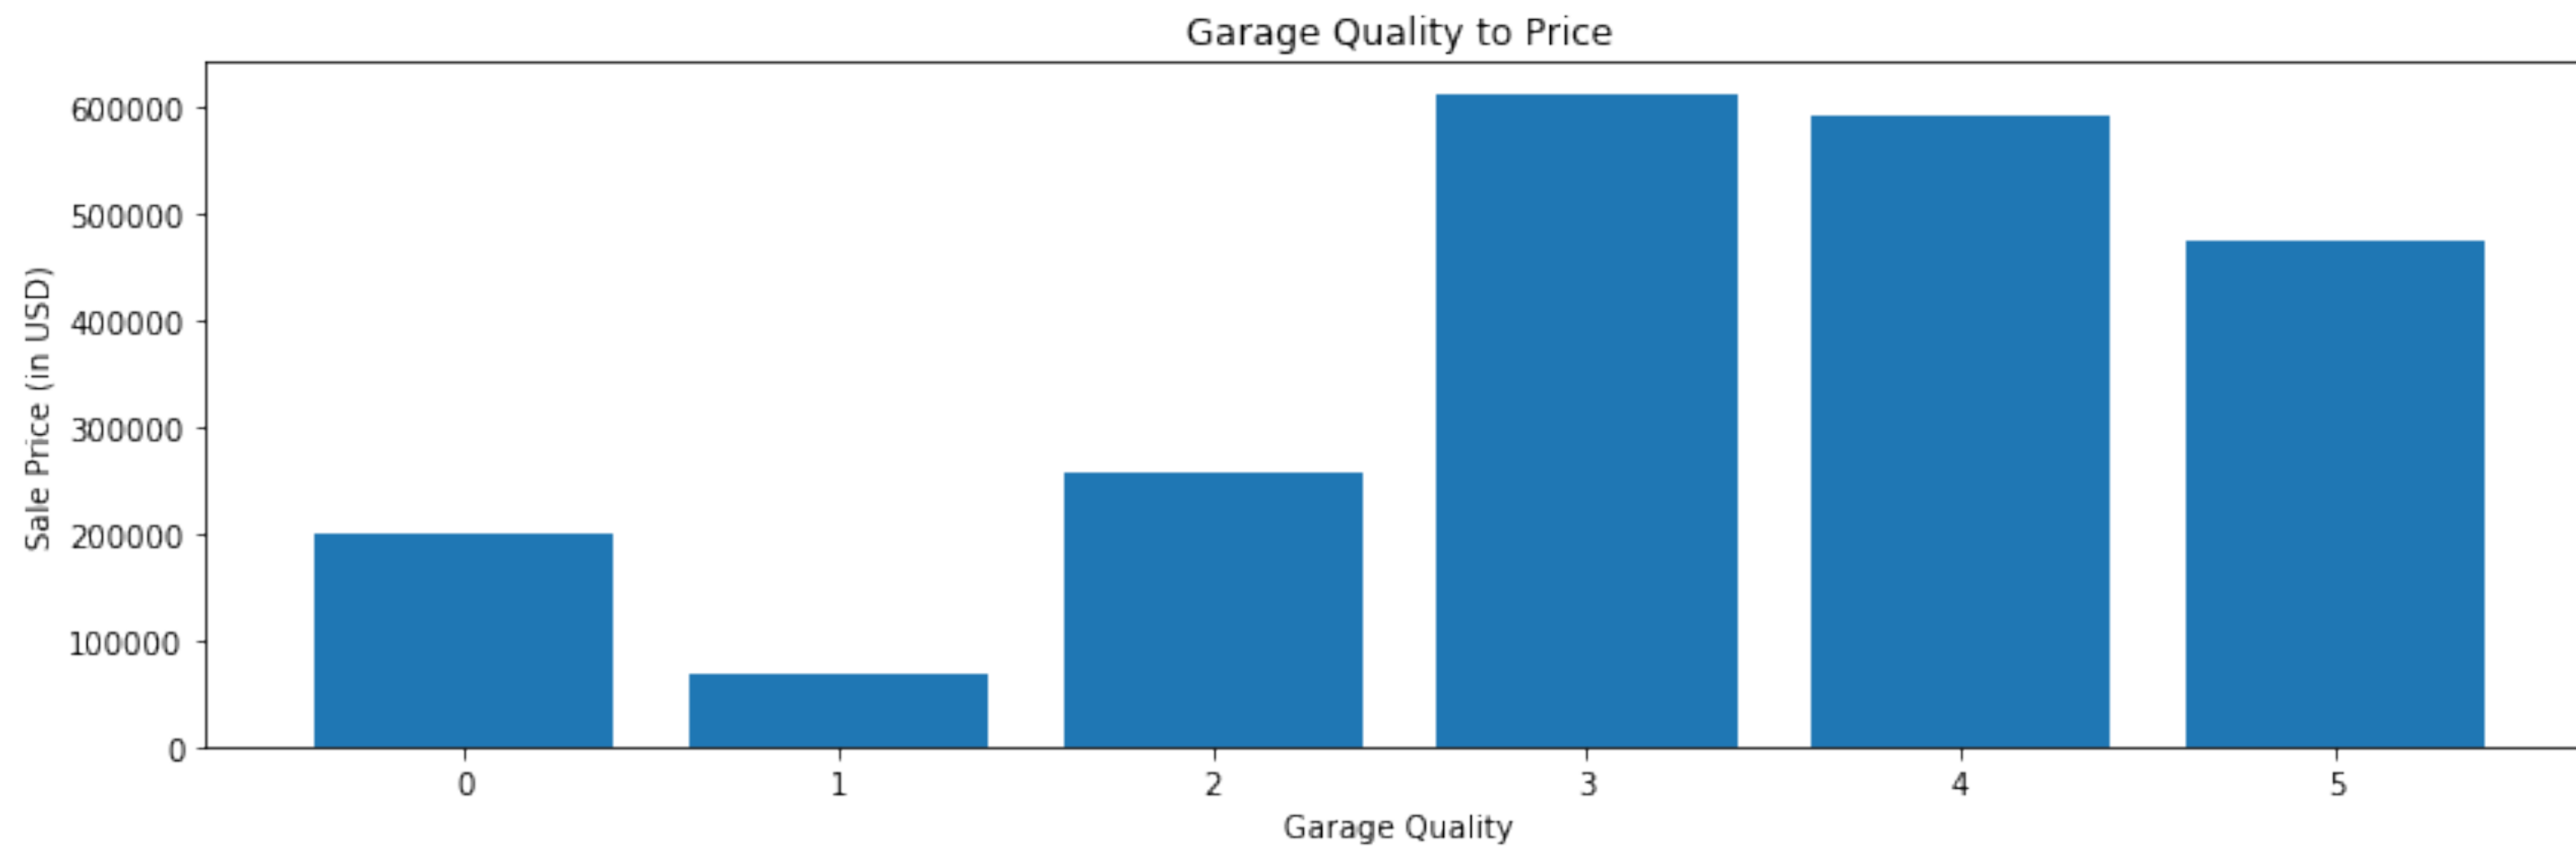

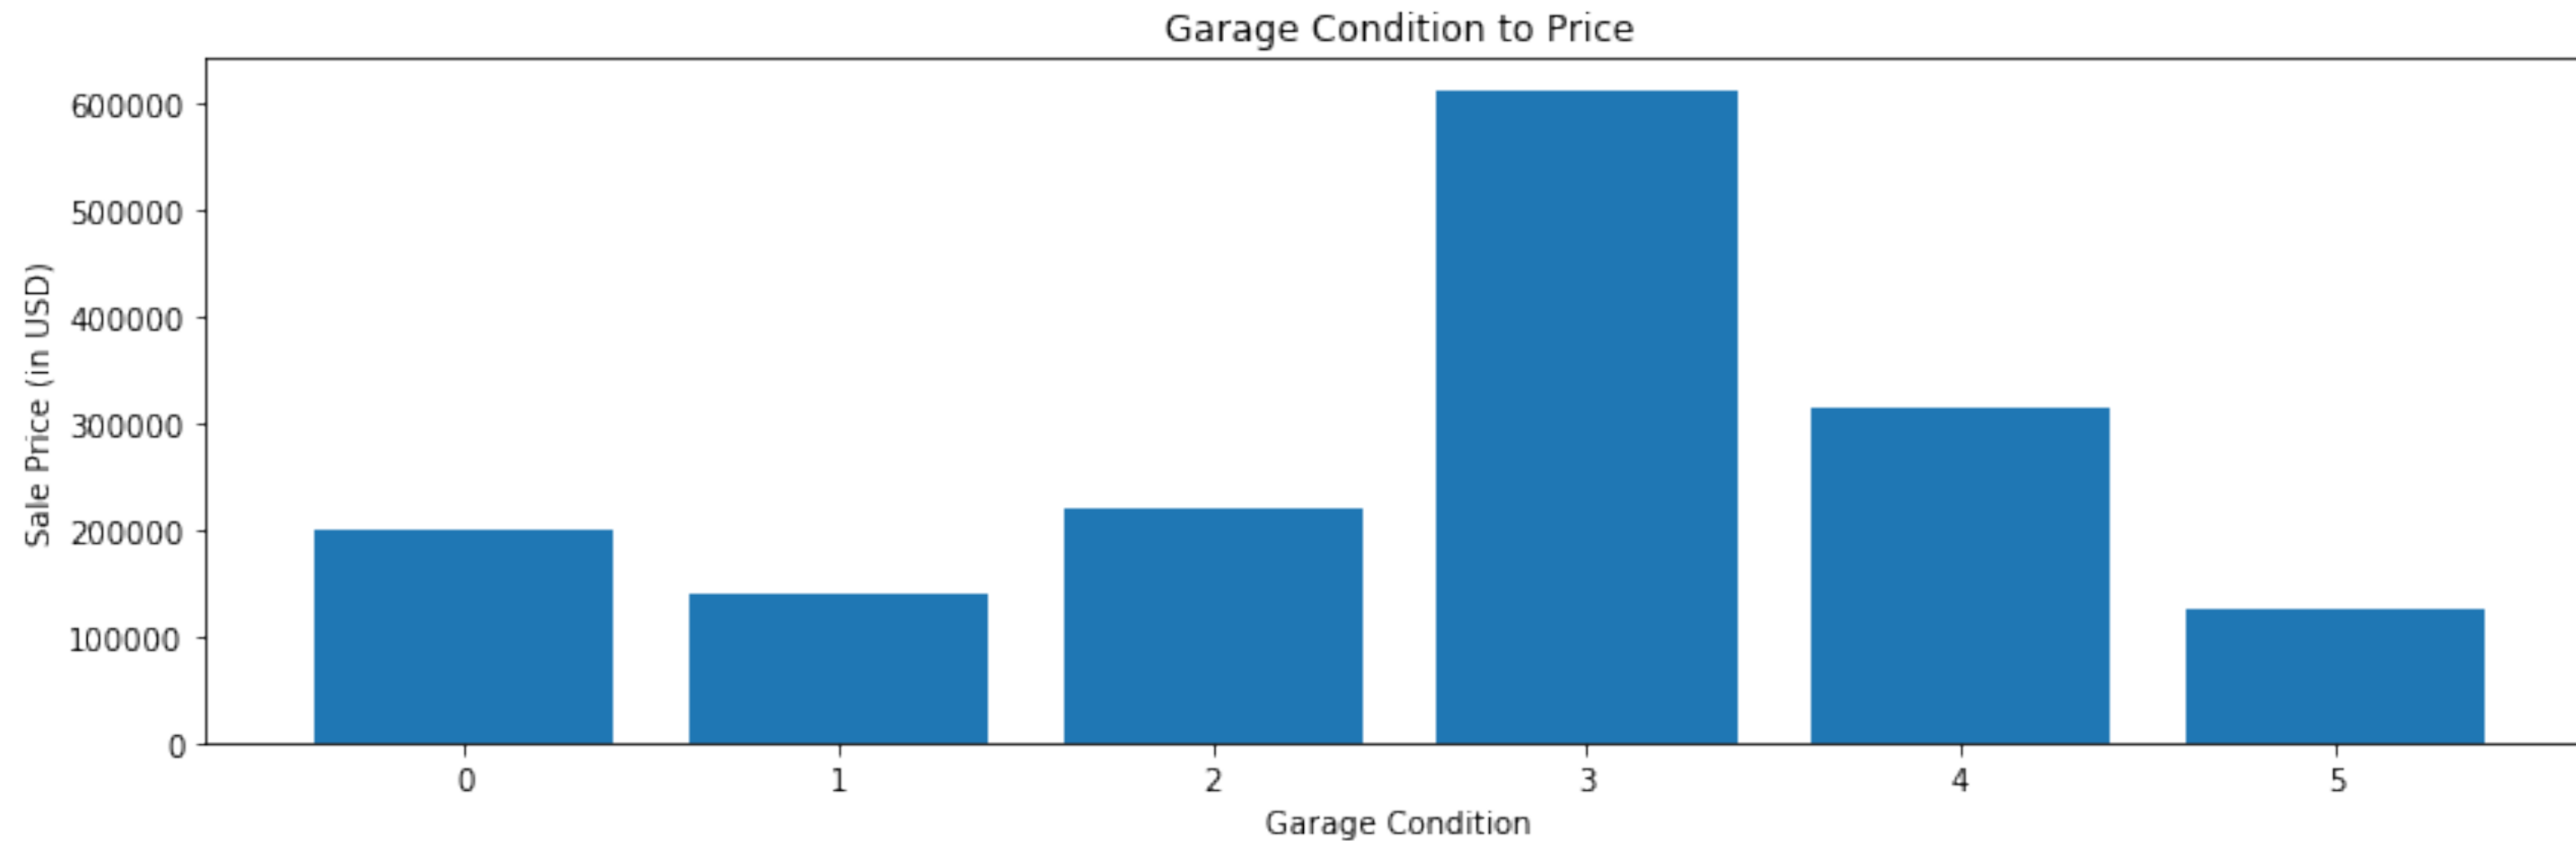

# Porch Options

# Garage Improvement

Again, helpful up to a point.

Beware diminishing returns!

# In Conclusion

**What you can change as a homeowner is limited. So focus your energy and resources on things that will give you the best return on investment: meeting middle standards for quality and condition, and perhaps adding a small porch to your home if you do not have one already.**
